---

Please attach additional pages as needed for full description, and if necessary, attach a sketch which shows lot lines and an outline of the footprint of your home. Indicate specifically where modifications or additions will be placed and provide specific measurements.

Please note that approval to proceed with the requested modification or addition granted by the Onion Creek Homeowner's Association only signifies that the requested modification either complies with the Onion Creek deed restrictions or qualifies for a variance from the restrictions. The approval does not constitute an endorsement of the structural integrity or the fitness for use of any modification or addition which ultimately might be made to the homeowner's property.
